Motor - Roller 89

Rollex Motor-Roller 89

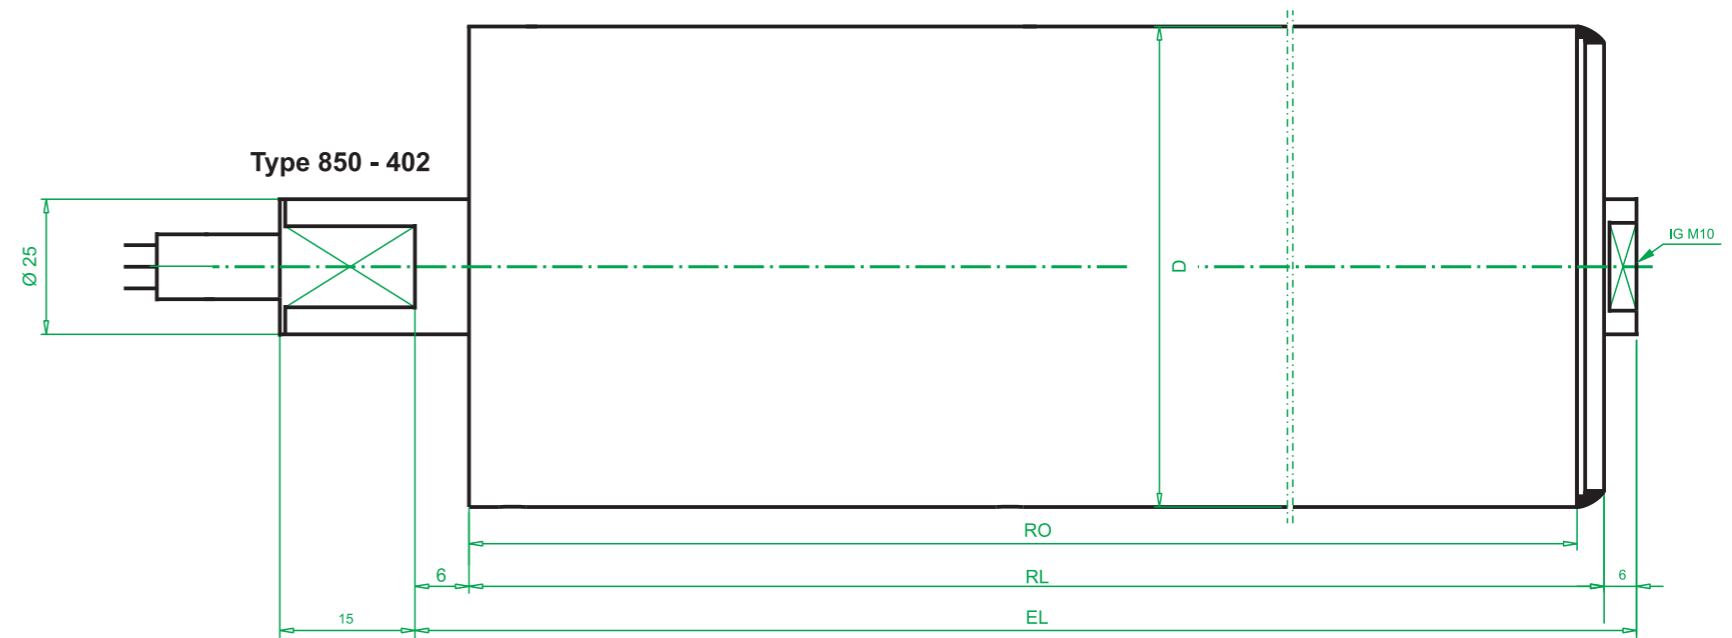

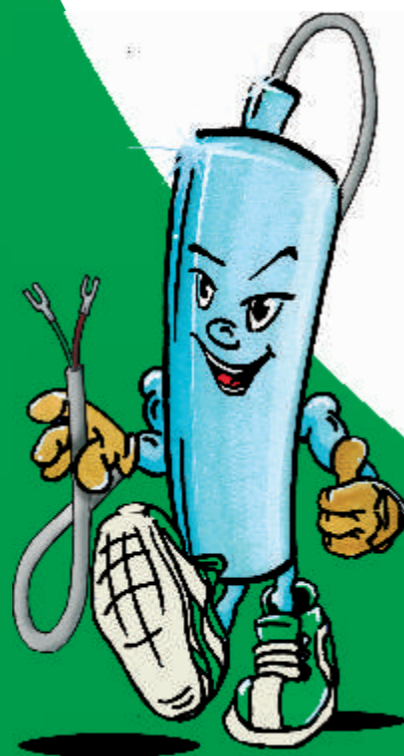

Type 850 - 89

The Motor-Roller Type 850-89 is a Power Pack. With this Motor-Roller pallets of 1000 kg can be transported. This drive concept is especially for low construction heights, turn-tables and tramming cars.

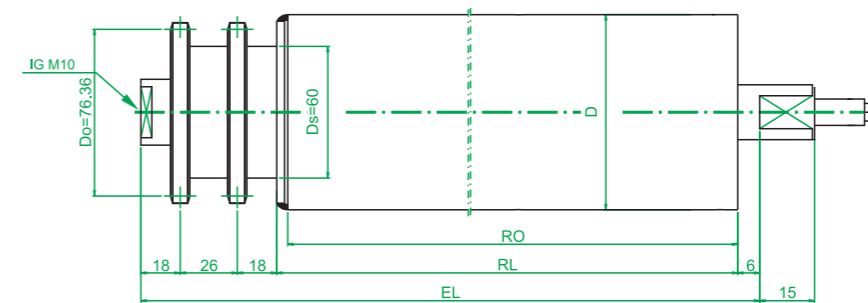

The Motor-Roller is driven by an oil-cooled motor, that guarantees long life. The motor can be built with an internal or external break, that will be mounted with another conveyor roller of that section.

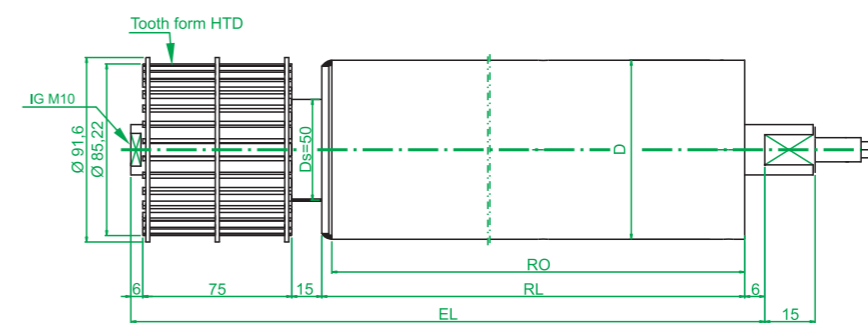

Further information you will find under www.rollex-group.com or by a personal consultation.

Motor Variation	Voltage in V	Nominal Power in A	Frequency in Hz	Power in KW	Speed in m/s	Torque in Nm	Circumferential force in N
Variation I	230/400	0,59/0,34	50	0,12	0,24	21,1	475
Variation II	230/400	0,59/0,34	50	0,12	0,34	14,7	331

Type 850 - 510

Type 850 - 534 Z34
